Good morning Juan,

Can we get the locations so we can make the attempt to outreach. We have a busy week and we want to make sure we stop by to provided services as needed. As for trash bags, we are limited and will need to stop by to gather some more.

Thank you,

Jenny

Thanks Lao for the update. We will still need the outreach team to reach out to the encampment locations on Tuesday and leave trash bags letting them know we are coming. Please let me know if your team needs any more bags.

Are there any other Wednesdays PATH will not be able to join us? I know some things just come up at times, but we need to have the Outreach Team join us on Wednesdays, PATH is a key to our outreach. If there is anyone at PATH that can join us on the 13th it would be greatly appreciated.

I'll send locations over tomorrow and any report questions that come up.

Thanks

CD13 Team,

This is informative: PATH outreach team will be partaking a webinar on 01.13.2016 at 9:00am—12:00pm.

This webinar includes a training for Version 2.1 of the CES packet. It'll definitely be important that each PATH outreach staff remains keen—the old 1.1 & 1.2 versions will no longer be utilized and information will no longer be allowed to enter into HMIS.

The Outreach team looks forward to using Friday (01.15.2016) to set appointments and meet CD13 clients.

If you have any question or concerns, please don't hesitate to call me or re: to discuss any matter.

Sincerely,

Lao Moua, MML

Hi Juan, good news! Tomorrow Jesus Torres and Jenny Mauries will be able to join your team for Juanita and maybe one or two more sites. Jesus just needs to clear his schedule to see what other times he can be there but the two will be there to support with Juanita for sure.

Again, our regrets that this mandatory and necessary CES training has fallen on such a busy day. I do hope this is helpful and that tomorrow goes wonderfully.

Take care,

Let's make sure we add these notes into the google doc.

Who from PATH went out, any progress? I would mark dates and names to make it easier to find in the future (should we need to, let's hope not...).
